Color Workstations – Easier on the Eyes

If you still use monochrome terminals with your Avanta system, you're missing out on the benefits of using color workstations or PC's. Their color screens make it much easier to differentiate between certain fields and screens in the Avanta system.

For example, the Appointment Scheduler uses a combination of up to 8 foreground and 8 background colors to help differentiate between multiple appointment reasons and locations. Using multiple colors makes it easy to get an idea of how your day is scheduled at a glance.

The ledger screen also utilizes color by displaying many of its fields in various colors. For example, charges and debits display in green, payments and credits in red, memos in white, and transaction dates and dates of service in blue. The place of service, physician's

initials, and insurance flags are displayed in yellow. There are other color variations in the Edit Posted Ledger Items screen as well as the reference view screen, making it much easier to analyze a patient's ledger and identify potential problems. In short, color screens are nicer to read and easier on the eyes.

For more information about adding or upgrading to color workstations, call Avanta and ask for Chip at 818-708-9700.

Seminar News

Avanta will be presenting Appointment Scheduler seminars on January 22nd, 23rd, and 24th.

There will be morning and afternoon sessions, beginning at 9:00am and 2:00pm. This seminar will review appointment scheduler features including initialization and setup, resource organization, shortcuts, printing, and overall operation. This seminar is designed to benefit everyone from the first-timer to the experienced user.

To reserve your place, please call Alyson at 818-708-9700. Because of the increased demand and limited space for Avanta seminars, we require a 24 hour cancellation notice. Seminars fill up quickly, so reserve your seat now!
