New HP Printers offer more...

If you still use a slow, noisy dot-matrix printer or want to upgrade your laser printer, take a look at the HP LaserJet 4200's and 4300's new features. With even faster performance, versatile paper handling, superior print quality, and greater expandability, these HP printers offer features that no other printer can match.

FLEXIBLE PAPER HANDLING: Customizable options allow up to a 2,600-sheet input capacity for those long statement and HCFA runs. A duplexer allows for two-sided printing to save paper on extensive reports, and a 500-sheet stacker as your paper-handling needs grow. The new paper-size sensors and easy-to-load trays without troublesome corner tables, make adding and changing paper effortless.

FASTER PERFORMANCE: The new 4200 uses a 300 MHz processor, comes with 48 MB RAM, and prints up to 35 pages per minute. The new 4300 uses a 350 MHz processor, comes with 64 MB RAM, and prints up to 45 pages per minute, significantly outperforming your existing printers. In addition both printers feature an instant-on fuser (no warm up time) that prints first page out in less than 9 seconds.

IMPROVED TONER: The new 10,000-page toner cartridge will need to be replaced less often which reduces your printing costs.

Fun Avanta Facts:

Here are some interesting facts about the Avanta system that you may not know:

- * The first Avanta System was installed in 1979, and we are still supporting some of these first clients today.
- * The Avanta Software runs on the rock solid UNIX operating system, the same operating system that powers the Internet.
- * The Avanta System is being used in California, Nevada, and Guam which is on the other side of the world, meaning that the sun never sets on Avanta.
- * Our office runs on a Macintosh network, many client systems run on Windows networks, and regardless of the environment we can all connect to Avanta.
- * The average age of the Avanta staff is 32.5, which means we should be here for many years to come.

HOLIDAY HOURS

Until 1971, both February 12 and February 22 were observed as federal public holidays to honor the birthdays of Abraham Lincoln (February 12) and George Washington (February 22). In 1971 President Richard Nixon proclaimed one single federal public holiday, the Presidents' Day, to be observed on the 3rd Monday of February, honoring all past presidents of the United States of America.

Avanta will be closed Monday, February 17th, in observance of Presidents Day. However, our automated phone attendant allows software and hardware team members to be paged in the event of an emergency. Have a safe and relaxing holiday.
