Medicare News

For most of Southern California, the current intermediary for Medicare billing in the most of Southern California, will soon be handing over the reins to National Heritage Insurance Company (NHIC). NHIC has recently provided us with the information to make this transition as smooth as possible, although with relatively short notice. We are currently making the necessary changes to the Avanta software and plan on having all affected clients updated by the transition deadline. We will also keep you up-to-date with additional information regarding this changeover.

Printer Ribbons

Avanta will no longer stock dot-matrix printer ribbons. This includes ribbons for the Okidata, Texas Instruments, and OTC printers. These ribbons can be purchased at most local business supply stores like Office Depot, Staples, etc. Our remaining supply is limited, so if you would like to place a final order, please call Alyson at 818-708-9700.

User Seminar News

The next Avanta seminars will be on December 12th, 13th, and 14th. This round of seminars will review billing history and events, and the new patient payment posting program. Seats fill up quickly, so reserve your place soon!!!

You Have Mail!

If your office is interested in receiving news and information about upcoming Avanta events via e-mail, please send your e-mail address to: support@avantasoft.com. We will be sending out information about upcoming seminars, software changes, and general information regarding the Avanta system.
